

Introduction to IronOrbit, USA.

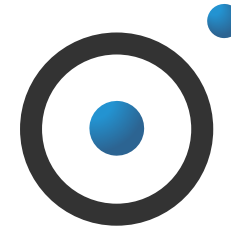

THE CLOUD MADE SIMPLE.

IronOrbit is a fully integrated Information, and Communications Technology (ICT) powerhouse specializing in cloud solutions for businesses to plan, deploy, and fuel digital transformations.

About Us

IronOrbit is a privately owned and fully integrated Information and Communications Technology (ICT) Powerhouse. We are a Specialized Cloud Services Leader focused on planning, deploying, and fueling Digital Transformations for major industries and verticals. IronOrbit innovates, develops, and produces comprehensive technology solutions, specializing in GPU-Accelerated cloud workspaces, for some of the biggest IT-related challenges facing modern businesses.

IronOrbit innovates, develops, and produces comprehensive technology solutions for next-generation environments. The company's flagship product, **INFINITY** Workspaces, focus on significant GPU use cases for both information workers and design professionals requiring graphics-intensive 3D applications.

Our Portfolio

Our Data Centers

Irvine, CA

Toronto, Canada

Ashburn, VA

SOC 2 Type 2 and Tier-Certified Facilities

- Restricted Access Facilities
- 24/7 Onsite Security
- Redundant Power, Networking, & HVAC
- Advanced Fire Suppression

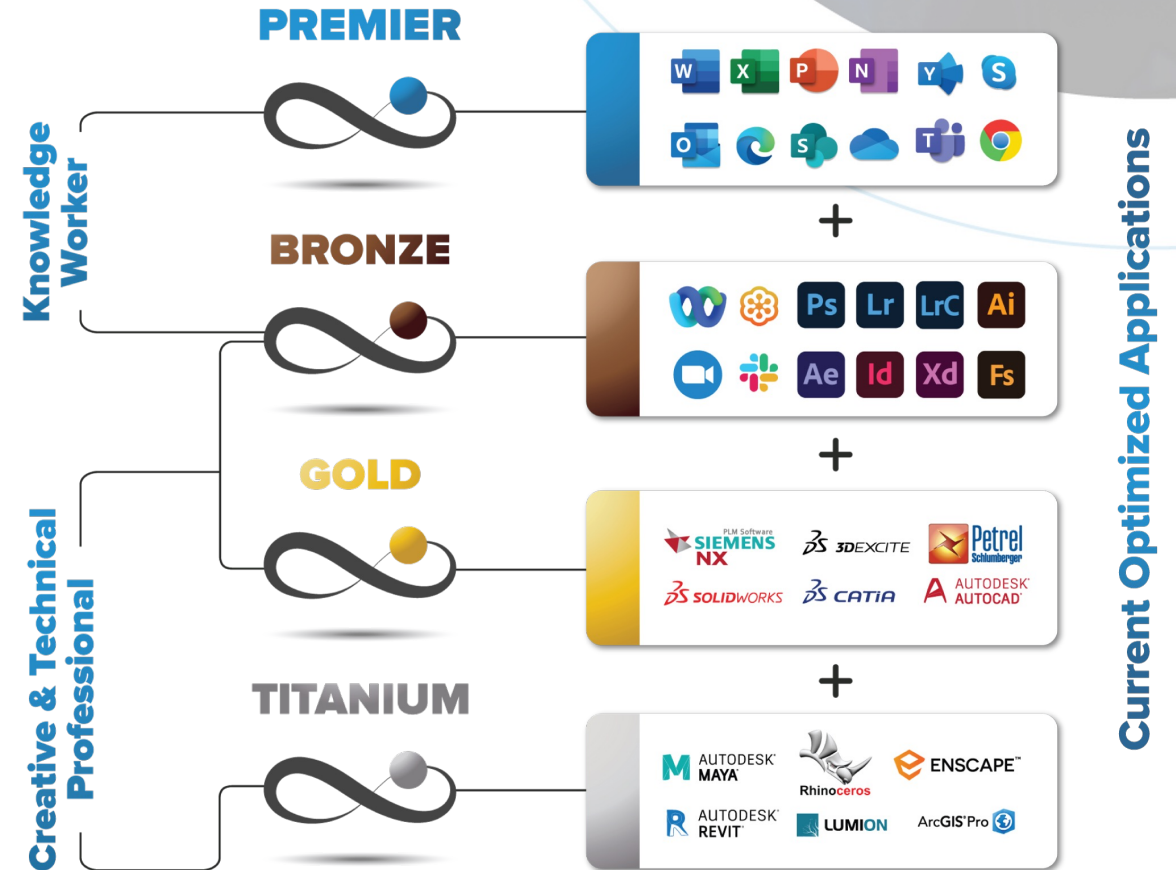

Geographic Redundancy

- Strategically Located to Mitigate Risk
- Active-Active Failover Configuration
- Real-Time Site-to-Site Replication
- 100% Network Uptime Guarantee

INFINITY Workspaces

We build IronOrbit **INFINITY** Workspaces for specific use-cases, profiles, and business-critical applications.

These are comprehensive and flexible workspaces with scalable resources to fit business needs even as they change. Users work from any location on a single, secure cloud network, accessible 24/7/365, from any device, from anywhere.

The Cloud Made Simple.

IronOrbit INFINITY Workspaces deliver extremely powerful cloud desktops, including GPU-Accelerated editions.

Designed from the application backward to meet the most demanding application requirements. IronOrbit customizes an all-in-one solution according to your needs and business strategy.

Introduction to IronOrbit, USA.

INFINITY Workspaces

More Computing for Less

More powerful SKU's, Builds, Designs, Faster GPU's and More Powerful infrastructure than anyone else on the market.

Infinite Usage & Upgrades

Unlimited hardware and software upgrades. Unmetered bandwidth utilization.

Scalability / Modularity

Scale Up or Scale Out when needed. Our platform is Modular, Future Proof, and Purpose Built.

Security & Compliance

IronOrbit complies by default with PCI DSS, HIPAA, SOC, & many other data control regulations.

Disaster Recovery & Business Continuity

Daily offsite backups & snapshots to a dedicated DR facility. Rapid recovery w/ RPO & RTO as low as 2 hrs.

24/7 US-based Support

Dedicated support teams w/ SLA of down to 10 seconds response time, 15 minutes resolution time, 24/7/365.

Collaboration Ready

Our workspaces are collaboration-enabled. IronOrbit is the only DaaS provider capable of providing Collaboration ready workspaces.

Customizable / Tailor-Made for You

We don't have cookie-cutter solutions; we have tailor-made purposeful-built INFINITY Workspaces for specific user profiles and industries.

The Cloud Made Simple.

ICT Management Portal

IronOrbit Central (IOCentral) is an AI Powered platform that enables control over business IT systems from one centralized interface.

The intuitive self-service portal allows for control over the entire IT landscape, whether on-premises, on the cloud, on multi-cloud, or in a hybrid environment. IOCentral empowers companies to manage service selection and subscriptions, retrieve project updates, and facilitate helpdesk support for end users' requests.

IOCentral delivers live views of your IT system performance and enables visibility of end-user computing and resource consumption. IT departments can measure system efficiency and utilization in real-time while taking the necessary steps to optimize IT resource consumption.

Introduction to IronOrbit, USA.

IOCentral

ICT Management Made Simple.

- **Full Self-Service Active Directory Management**
 - **Service Subscription Management**
 - **Live View Monitoring Complete**
 - **Software Visibility Service**
 - **Order Management**
 - **Password Expiration Emails**
 - **Single-Sign-On Ready**

The Cloud Made Simple.

Security

INFINITY Workspaces Secured by CrowdStrike's 24/7 Managed Service Program

As an enhanced layer of security, IronOrbit integrated CrowdStrike's Falcon Complete platform with our INFINITY Workspaces to handle all aspects of endpoint security. This multifaceted protection system comes as a standard component with our Managed Services Program and INFINITY Workspaces offerings.

Imagine having 5 full-time incident responders conducting everything from policy configuration, to day-to-day monitoring of alerts, to full compromise remediation if necessary. That is what you get with IronOrbit's 24/7 Managed Service Program.

PROTECTED BY

CROWDSTRIKE

The background of the slide features a large, stylized illustration of a falcon's head and wings. The falcon is rendered in a low-poly, geometric style with a color palette of dark red, blue, and white. It is shown in profile, facing left, with its wings spread as if in flight. The falcon's beak is pointed downwards, and its talons are visible at the bottom. The overall aesthetic is modern and tech-oriented.

The Cloud Made Simple.

Compliance

IronOrbit is a compliance-ready environment. Keeping compliant. IronOrbit complies by default with PCI DSS, HIPAA, SOC, and many other data control regulations.

The Cloud Made Simple.

Our Partners

IronOrbit works with many outstanding organizations. Visit the partnership page on our website to learn about our partner benefits. Here are a few we'd like to showcase.
